

Granite State is seeking approval of a specific site in Wells, Maine to store LNG that would be transported by tanker trucks from Everett, Massachusetts. The LNG would be vaporized as needed and the natural gas delivered into Granite State's existing pipeline system or the Portland Natural Gas Transmission System. The proposed action involves construction of:

- A 580,000-barrel LNG storage tank (equivalent to 2 billion cubic feet of natural gas);
- Two truck unloading stations;
- Two 67 million cubic feet per day vaporizers;
- A vapor handling system;
- A 12-inch-diameter sendout pipeline; and
- A new 1.4-mile-long permanent access road to the storage facility site from State Route 9.

In addition, Granite State proposes to upgrade and temporarily use an existing 1.1-mile-long dirt road for access into the storage facility site during the initial stages of construction.

The purpose of the proposed facilities would be to provide a 134,000 million British thermal units per day peak shaving service.

The FEIS has been placed in the public files of the FERC and is available for public inspection at:

Federal Energy Regulatory Commission,
Public Reference and Files
Maintenance Branch, 888 First Street,
N.E., Room 2A, Washington, DC
20426, (202) 208-1371

and

Town Manager's Office, Town Hall,
Wells, ME 04090, (207) 646-5113.

Copies of the FEIS have been mailed to Federal, state and local agencies; public interest groups; interested individuals; newspapers; and parties to this proceeding. A limited number of copies of the FEIS are available from the Public Reference and Files Maintenance Branch identified above.

Additional information about the proposed project is available from Paul

McKee in the Commission's Office of External Affairs at (202) 202-1888.

Lois D. Cashell,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Project No. 11393-001 Alaska]

City of Saxman; Notice of Availability of Draft Environmental Assessment

July 14, 1997.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for an original license for the major, unconstructed, Mahoney Lake Hydroelectric Project. The project would be located on Upper Mahoney Lake and Upper Mahoney Creek near Ketchikan in Southeast Alaska. The Commission staff has prepared a Draft Environmental Assessment (DEA) on the project. The DEA contains the staff's analysis of the potential environmental impacts of the project and has concluded that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.

Any comments should be filed within 30 days from the date of this notice and should be addressed to Lois D. Cashell, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426. For further information, contact Vince Yearick,

Environmental Coordinator, at (202) 219-3073.

Lois D. Cashell,

Secretary.
